

FACT SHEET

OVERVIEW:	Ensynch is an award-winning provider of IT infrastructure services, IT staffing and data center managed services. Founded in 2000, the IT services firm provides a full range of secure, manageable, and cost-effective technology solutions that help growing businesses operate more efficiently, with greater security and increased agility. Ensynch serves mid-market to enterprise-level commercial and public sector customers. Its business technology offerings include IT strategy, assessments, implementation, staffing, and data center solutions ranging from colocation to remote monitoring to fully-outsourced IT management. Ensynch has earned consecutive spots on the Inc 500 and numerous Microsoft distinctions including a Worldwide Partner Excellence Award.
